

Interlibrary Loan Policy (D-12)

The St. Francis School District and Library Media programs shall support resource sharing both within the District and within the area through an arrangement with the St. Francis Public Library, a member of the Milwaukee County Federated Library System.

Adopted: November 19, 2003

Interlibrary Loan Policy Guidelines

St. Francis School District staff and students may request materials from any district library by contacting the library media specialist in the building. Students may also access materials through the Milwaukee County Federated Library System by using County Cat and throughout the state by using WISCAT.

In addition, the St. Francis Public Library provides teachers a service to support their curriculum by providing books and other materials to supplement school and classroom library resources upon request. On a weekly basis, the District will pick up and return these resources to the public library.
