St. Francis School District requests volunteers for Facility Planning Committee

The St. Francis School District is committed to continuous improvement and alignment with our six District Goals. As a part of this ongoing process, a long-range facility planning study was initiated during the 2016-2017 school year. To continue these efforts, the District is seeking St. Francis community members who are interested in serving on a Facility Planning Committee.

The goal of this committee is to review the recently completed facilities study, review the financial landscape of the District, tour building facilities, and provide feedback and advisory direction for the Board on next steps in maintaining District Facilities.

This vital work will help guide the District in our planning to ensure our students have high-quality educational facilities that are conducive to learning. It is also important that funds allocated to the maintenance and improvement of school sites are targeted in an effective manner with a long-term approach.

The time commitment for this important work would be 1-2 meetings per month for a 6 month period, starting in July 2017 with a “Kickoff Meeting” and tentatively ending in January 2018 with advisory recommendations being proposed to the Board of Education.

School district facilities are a fundamental part of our St. Francis Community. We appreciate those willing to serve to ensure our facility plans reflect the long-range goals of the community and our students while also being responsive to the financial capacity of the St. Francis School District and city community.

Please contact Lisa Jarosh, District Secretary, at (414)747-3901 or email ljarosh@sfsd.k12.wi.us if you are interested in participating!
