The St. Francis School District School Board has a vacancy for a Board Member position from this date until the 2018 Spring Election. City of St. Francis residents interested in this leadership position should send a letter of interest to Blake A. Peuse, Superintendent of Schools. You may also contact Superintendent Peuse if you have any questions pertaining to this opportunity (414) 747-3910.

The Board of Education is a legal entity for providing a system of public education within the City of St. Francis. The Board has the dual responsibility for implementing statutory requirements pertaining to public education and for meeting the desires of residents. While the Board has an obligation to determine and assess citizen desires, it is understood that when the voters elect delegates to represent them in the conduct of specified educational programs, they, at the same time, are endowed with the authority to exercise their best judgment in determining policies, making decisions, and approving procedures for carrying out the responsibility.

The Board declares and thereby, reaffirms its intent to:

1. Maintain two-way communications with citizens of the District. The Board shall keep them informed of the progress and issues of the School District, and the citizens shall be urged to bring their aspirations and concerns about the District to the attention of this body.
2. Establish policies and make decisions on the basis of declared educational philosophy and goals.
3. Act as a representative body for citizens in all matters related to programs and operations. The Board recognizes that ultimate responsibility for public education rests with the State, but the Board of Education has been assigned specific authority through statute, and the Board shall not relinquish or fail to exercise that authority.

The Board may interview interested candidates to ascertain their qualifications and appointment by the Board to fill this vacancy shall be by a majority vote of the existing Board.

Thank you for considering this opportunity.
