

BOOSTER CLUB MEETING

MARCH 4, 2010

Start-End Time: 7:00pm-8:00pm

Board Members Present: Sherry U. and Kimberly S.

Updates: "Champs" was a big success! Booster club made \$250.00 on the Raffles and another \$350.00 in percentage sales! Thank you to all the families who came out to support your kids!

Valentine's Day Flower Sale: Another success for our kids, school, and Booster Club. A total of \$ 295.00 was made. Thank you to Jackie Brickner and Lynn D'Alessio who helped with this great event!!

Volleyball tournament "TONIGHT!" Friday March 5, 2010 @ 7:00pm! There will be a total of 12 teams, including 2 of them being teachers! The admission will be \$2.00 per adult and \$1.00 per student. Refreshments will be served during the games. Let's have a fun and safe time. Who will take it all, The "Students" or the Teachers?" Stay Tuned!!

Going Green, Wednesday, March 17, 2010 (ST. Patrick's Day!) Bring in all your aluminum cans and any scrap metals. Drive up that day place the can's in the bin of "YOUR" class. The class with the most donated metals will win a prize! Announcement to be made!

New Courses at St. Francis! There have been a total of **7** new courses added to our electives. From new Science courses to graphic arts and even a change in our English Department. Watch for them and give a try, you just may find your future nitch!

Reconstruction: The building has been changing as many have noticed. The office will be moving towards the back of the building towards the athletic department. This will be temporary so construction can begin in the original office in its final updates. The Temporary move will be around spring break. Any questions please contact the office.

Baseball Field: The school has been working and trying to arrange baseball games to be played at "**Green Park!**" Many details need to be worked out, but they are in the works. Between the school and the city we hope to have that up and coming, making our field more local to our families. More updates to follow!

Sport Metals: Talk of current metals purchased being made in the USA, with quality metals costing a little more, vs. China's quality and a little less in price. Decision not finalized.

Scholarships: Due to less money being available, it was important to Board members and family members present to still be able to give Scholarships. In the past "**Four**" \$250.00 scholarships had been given out to graduating seniors. Unfortunately this year we will be unable to do the same. So a motions was passed to give "**Two**" \$200.00 scholarships out.

Also a motion was carried out on two more issues concerning the scholarships.

1. Our scholarships will be judged the same way as the St. Francis High School Multiple Scholarship applications. (See the office for scholarship applications and rules)

2. Also in past students receiving scholarships needed to wait and send in their 1st college report card, then the scholarship money was sent to them. It has been decided that students receiving theses scholarships will receive them

on senior award night. This way students will be able to have their money right away to use as they need it.

New Fundraiser: This idea was founded by Mrs. Brahm. We would like to make a St. Francis Cook Book. We are asking for each family to send in his or her students favorite recipe. We will collect those place them in order and have them printed in to a nice book. The books will sell at a price, yet to be determined. So talk to your kids find out what they love, and send those recipes in! Either send them to the office, we will have a box: ST. FRANCIS BOOSTER CLUB RECIPES! A second way would be to either e-mail them to Kimberly, jschwantz@wi.rr.com or Sherry Urbaniak (e-mail) on the front page of the Booster club.

***Lets make this a fun family project! Ask your mom, dad even grandmother for your favorite family recipe! We'll try to keep them a secret!!**

Post Prom: This is another "BIG" event affected by the money shortage our school has seen. The Booster Club has always given \$1000.00, which unfortunately we cannot do. Because it is so important that these kids have a safe place to go after prom, we are working hard with the school to make this happen. Many ideas are in place, and we will continue to work hard to help provide this safe event to still happen

Upcoming Events: Culver's Family night, also the talk of BW3's Family night, all dates to be determined.

***REMEMBER ALL EVENTS NEED VOLENTEERS, SO PLEASE HELP WHEN EVER YOU CAN, IT REALLY MAKES ALL THE DIFFERENCE!!!**

Minuets submitted by: Kimberly Schwantz, Booster Club Secretary
