

# Outdoor Science Club

❖ Our club is a unique opportunity for students to explore various outdoor activities while learning about nature and the environment around us.

❖ Students learn about science topics not necessarily covered within the realm of the classroom.

❖ Some activities we have participated in include:

 Canoeing      Nature Hikes      Snow Tubing  
Ice Fishing      Horseback Riding      Environmental  
Zoo Trips      Rock Climbing      Projects ... We

encourage suggestions for any other activities that may incorporate the outdoor and science theme!

If you have any questions, comments, or concerns, please see Mr. Gottfried in Room 117
