4:00 p.m. to 5:15 p.m.

Electives for Grades 6, 7 & 8th

The Committee would like to thank the staff in grades 6-12 that responded to the e-mail survey asking for their ideas about grades 6-8 electives. There were many similarities in responses. Any decisions about electives will be implemented in August of 2002.

Similarities Noted:

1. Students lack writing skills.

2. Students should take a math test at the conclusion of grades 5-7. This test, along with teacher recommendation, would determine if the student were placed in a remedial math elective course (grade C or lower).

3. Only one (1) assisted study hall may be taken during the elective period.

4. Electives should be scheduled the last two 50-minute periods of the day.

5. All electives should be yearlong classes.
6. We offer two kinds of electives: mandatory (every student takes) and optional (student choice).

ACTION ITEMS:

Upon motion by Ms. Hemmer, seconded by Ms. Koch, the Resolution and Declaration of Official Intent to Authorize Lease Purchase Agreement with Bank and Leasing Corp. was unanimously approved.

REPORTS AND DISCUSSION:

Special Discussion Item Karl V. Hertz, Superintendent Search Consultant

The search process is as short as 15 weeks, with a maximum of approximately 22 weeks.

The process may involve the following:

1) The Board can hire a person or consulting firm to do the search.

2) The Board can do the search themselves or use Mr. Hertz as a guide.

A question as to what hiring a firm accomplishes was posed.

A firm communicates with the School Board. Also, talks to people in the community about what they would like to see in a Superintendent, as well as, interviews each Board Member separately.

A firm assembles an overview that informs as to what the community would like and distributes this information to the public.
A firm reviews applicants and tries to match them up in accordance with the School District’s requirements. After which, the firm would interview about twelve (12) people and narrow it down to approximately four (4) to six (6) candidates for the School Board to interview. A firm would also call references and other people who have worked with them.

After a decision has been made, the School Board representatives should go to the community where this person if from and talk to the people the candidates serve.

The approximate cost is $8,000.00, plus mileage and phone calls if the School District decides to hire the firm, (i.e., Bickert Group). Costs could be less if the firm does not do national advertising.

A question was raised as to what the costs/involvement would be if the School Board hired Mr. Hertz as a consultant/guide.

It would be recommended to post the advertisement approximately two (2) months.

Mr. Hertz recommends that the Superintendent be hired first (March through May). The new Superintendent would then assist in the hiring of the other Administrators. It was recommended, however, to post the positions available, so the applications would be available for the new Superintendent to review and begin the hiring process.

As for the residency requirement, Mr. Hertz recommends, don’t make a decision based on the residency requirement as of yet. The School District would not want to lose the best person available due to this requirement.

Mr. Hertz recommended to list the salary, but not in a public setting. A consultant needs to have an idea of the range, so perspective clients can be watched for.

In regards to the Superintendent Search, it was noted that there is a need to do an RFP in the next Finance Committee Meeting.

It was reported that the Summer Cool Program is running behind, but this does not pose a problem. Mrs. Stover will handle the organizations for the program and work until the end of her contract.

No other concerns were noted.
