WORK SESSION:

The Board reviewed student goals/vision and building goals and how they relate to the District’s strategic plan and goals. The Board affirmed their commitment to maintain the schools for the good of the community.

The Board reviewed enrollment data. All indicators suggest continued decreasing resident enrollment. Building Principals reported staff attempted to contact all resident families that have left the School District to find the rationale for their leaving. The elementary schools reported the majority reason for resident withdrawal as families moving into another resident district. Two (2) elementary resident families were reported as being dissatisfied with the St. Francis School District. Rationale for resident withdrawal at the High School is on a more individual basis. Most withdrawals are due to convenience or course options.

Discussion ensued on St. Francis resident students currently attending non-resident districts under the Open Enrollment Program. The majority of open enrolled-out students never have attended the St. Francis School District. These students moved into St. Francis, but continued to attend school in the non-resident district under tuition waiver, eventually applying under the Open Enrollment Program.

Conversation continued and several ideas were shared on how to ensure non-resident student commitment. The suggestion was made to have more students open enrolled before the High School grade levels. The Board will evaluate the possibility of opening additional new Open Enrollment seats at the elementary level. The Board and Administrators discussed how to develop a specific identity for the St. Francis High School, as well as, different ways the District could collaborate with other school districts.

Discussion ensued between the Board and Administrators on what is necessary for the District to continue as a viable school district in the future. The Board and Administration realize that there will need to be some changes. The Board will continue to review how the District provides services to students, to include additional school/grade configurations, as well as, student/teacher ratios.

Upon motion by Ms. Rutter, seconded by Mr. Iwanski, the President declared the work session adjourned at 7:05 p.m.

REPORTS/ITEMS FOR DISCUSSION/POSSIBLE ACTION:

Upon motion by Ms. Hemmer, seconded by Mr. Boknevitz, the Board unanimously adopted the following resolution on the possible elimination of Milwaukee County Transit Route 89:

It is the position of the St. Francis School Board that the Milwaukee County Board must continue to serve students of the St. Francis Schools by maintaining Transit Route 89. Route 89 provides needed daily transportation to dozens of St. Francis School District students living in St. Francis and in the City of Milwaukee.

These students not only enjoy an affordable and safe ride to and from their neighborhoods, but are able to participate in extra-curricular activities that would not be available to them were it not for the bus route’s flexible schedule.

The St. Francis School Board fears that the route’s elimination for financial reasons, as a part of the Milwaukee County Board’s budget deliberations, will have a significant negative impact on our students, who will no longer have access to transportation to and from school.

The St. Francis School Board asks the Milwaukee County Board of Supervisors to carefully consider the impact of Route 89 on the dozens of affected students who rely on it for transportation and on the St. Francis School District, as a whole.

Adopted and recorded this 21st day of September, 2009.
