Business Manager Kelly reported on the following:

1) Business Manager Kelly presented an update on the Health Insurance Committee meeting held on December 5, 2011. At this meeting, the District’s health insurance consultant, Hays Companies presented options on how the District could realize $135K in health insurance savings by June 30, 2012. Discussion ensued. The Health Insurance Committee is recommending three (3) areas of change to the current health plan:

- Change from the District’s current Options PPO Network to the Choice Plus Network effective January 1, 2012. Medical providers available in the District’s current health network are also available in the Choice Plus Network. In order to change networks, the District had to meet a number of requirements that included increasing the out-of-pocket maximum, increasing the out-of-network deductible and increasing the out-of-network coinsurance. The network change will provide greater discounts to the plan, creating a savings of approximately $110,000 to $166,000 over the next six (6) months.

- The second recommendation is to make necessary medical plan changes. These medical plan changes will create a savings of approximately $25,000.

- The third recommendation is to consolidate life insurance carriers. Currently, the District contracts with two different life insurance carriers. By consolidating to only one vendor for life insurance, it will not only save on costs, but on Business Office staff time. Hays Companies is currently analyzing life insurance proposals. The District anticipates a February 1, 2012 change for this area. The proposed consolidation will create a savings of approximately $5,000. Overall, the Health Insurance Committee is recommending changes that will create a savings of $135,000 by June 30, 2012. The School District Administration and Board appreciates the cooperation and collegiality the Committee exhibited to help the District balance the budget.

Upon motion by Ms. Rutter, seconded by Ms. Hemmer, the Board unanimously approved the change of health network, medical/RX plan changes and the consolidation to one life insurance vendor.

The Board reviewed enrollment projection data in determining new Open Enrollment seats for the 2011-2012 school year. The District proposes to open a total of 140 new seats under the Open Enrollment Program. The Board determined a limit of sixty-five (65) new Open Enrollment seats at the 9th grade level and forty (40) new Open Enrollment Seats at the 10th grade level. This is necessary in order to maintain class sizes in two required subjects, English and History, to no more than thirty (30) students per class. At the elementary level, the Board determined a limit of eight (8) new seats at grade K5; fifteen (15) new seats at grade 4; and twelve (12) new seats at grade 5. Based upon guidelines, the Board concluded that 140 new Open Enrollment seats with additional wait lists at all grade levels, along with providing additional seats for current tuition waivers, would assist in stabilizing the District’s enrollment. Upon motion by Ms. Rutter, seconded by Ms. Mayer, the approval of 140 new Open Enrollment seats, with additional wait lists at all grade levels, along with providing additional seats for current tuition waivers was unanimously approved by Board Members Hemmer, Iwanski, Rutter and Mayer.
