Physical examination news (Physical forms may be attained at any time)

Participating in high school sports requires a physical examination prior to participation and every two years thereafter.

WIAA 2020 winter sports one time extension of the two year period for student-athletes with physical exam forms already on file.

Student athletes that have had a physical within the last two years may receive an extension into the third year until they are able to get a physical with their primary physician because of covid19 situations. Parents are required to complete the newly created physical examination extension form and submit the document to the Athletic Director.

If a student-athlete has not had a sports physical on file in the past two years, one will be required before the student-athlete will be allowed to participate, this includes all incoming freshmen. These forms are available from the front office or on the St.Francis athletics page.
