St. Francis, WI 53235

Asbestos

In compliance with the Federal Asbestos Hazardous Emergency Response Act (AHERA), the St. Francis School District has prepared an Asbestos Management Plan for all district buildings. The Director of Facilities and Operations, along with the Head Custodian in each building, monitor that building's plan, making it available for review. The complete District plan is available for review and can be obtained by contacting the St. Francis School District at (414) 747-3900 or visiting the St. Francis School District Business Office, located in the St. Francis High School, 4225 South Lake Drive.

Some asbestos has been removed from all schools. All remaining asbestos is in a non-friable condition. The asbestos that is still in the schools is monitored and is not a danger to any student or employee.
